

How To's

Published: 2017-09-02

Admin

- [Register your ExtraHop appliance](#)
- [Upgrade the firmware on your ExtraHop appliance](#)
- [Add a trusted certificate to your ExtraHop appliance](#)
- [Send audit log data to a remote syslog server](#)
- [Configure an email notification group](#)
- [Configure SNMP settings to send notifications to an SNMP manager](#)
- [Configure syslog settings to send system notifications to a remote syslog server](#)
- [Configure the Discover appliance to collect traffic from NetFlow and sFlow devices](#)
- [Set up shared SNMP credentials for your NetFlow or sFlow networks](#)
- [Reset the local datastore and remove all device metrics from the Discover appliance](#)
- [Calculate the size needed for your extended datastore](#)
- [Configure an extended CIFS or NFS datastore](#)
- [Archive an extended datastore for read-only access](#)
- [Troubleshoot issues with the extended datastore](#)

Alerts

- [Configure threshold alert settings](#)
- [Configure trend alert settings](#)
- [Assign an alert to a source](#)
- [Add a notification to an alert](#)
- [Create an exclusion interval for alerts](#)

Bundles

- [Install a bundle](#)
- [Create a bundle](#)
- [Post a bundle to the ExtraHop website](#)

Charts

- [Create a chart](#)
- [Copy a chart](#)
- [Edit a chart with the Metric Explorer](#)
- [Drill down](#)
- [Export data](#)
- [Display a rate or count in a chart](#)
- [Display percentiles or a mean in a chart](#)
- [Edit metric labels in a chart legend](#)
- [Add a dynamic baseline to a chart](#)
- [Add a static threshold line to a chart](#)
- [Display device group members in a chart](#)
- [Create regular expression filters in a chart](#)
- [Find all devices talking to external IP addresses](#)
- [Monitor a device for external IP address connections](#)

Custom Metrics

- [Create custom metrics](#)
- [Delete a custom metric](#)

Dashboards

- [Create a dashboard](#)
- [Copy a dashboard](#)
- [Edit a dashboard layout](#)
- [Edit a chart with the Metric Explorer](#)
- [Edit a text box widget](#)
- [Edit a dashboard region](#)
- [Change the region time interval in a dashboard](#)
- [Edit dashboard properties](#)
- [Present a dashboard](#)
- [Share a dashboard](#)
- [Export data](#)
- [Create a PDF file](#)
- [Organize custom and shared dashboards](#)

Devices

- [Find a device](#)
- [Customize a device](#)
- [Create a device group](#)
- [View the device limit and device counts](#)
- [Add or remove devices from the whitelist](#)
- [Create a custom device](#)
- [Delete or disable custom devices](#)
- [Migrate pseudo devices to custom devices](#)

General

- [Create a report](#)
- [Schedule a report](#)
- [Create an activity map](#)
- [Export data](#)
- [Create a PDF file](#)
- [Compare metric deltas](#)
- [Zoom in on a time range](#)
- [Working with custom pages](#)
- [Working with flex grids](#)
- [Migrate flex grids to a table widget](#)

Geomaps

- [Generate a geomap for a device group or an application](#)
- [Generate a geomap for a single device](#)

Packet Capture

- [Configure global packet capture](#)

Records

- [Collect flow records](#) 
- [Collect L7 records](#) 
- [Collect custom records](#) 
- [Query for stored records from a Discover or Command appliance](#) 

Triggers

- [Build a trigger](#) 
- [Monitor trigger performance](#)
