

# Create a dashboard collection

Published: 2020-02-23

You can create a collection to organize dashboards that you own and that have been shared with you.

Here are some important considerations about dashboard collections:

- Your [user privileges](#) determine whether you can create and share collections.
  - You can add any dashboard to a collection that you own or have permission to view or edit.
  - You can add a dashboard to multiple collections.
  - You can share a collection if you own or have edit permission for all of the dashboards in that collection.
1. Log into the Web UI on the Discover or Command appliance and click **Dashboards** at the top of the page.
  2. Click **Collections** at the top of the dashboard dock and then click **Create Collection** at the bottom of the dock.
  3. In the **Name** field, type a unique name for the collection.
  4. Optional: In the **Description** field, add information about the collection.
  5. Optional: Type the name of a user or group in the **Sharing** drop-down list, select from the search results, and then click **Add**.
  6. Type the name of a dashboard in the **Contents** drop-down list and then select from the search results. The name of the owner is displayed for each added dashboard.

**Tip:** The dashboard at the top of the list is displayed by default when the collection is selected in the dashboard dock. Click and drag the icon next to a dashboard name to re-order the list.

7. Click **Save**.  
The collection is added to the dashboard dock.
