Copy a chart

Published: 2024-04-01

You can copy a chart from a dashboard or protocol page and then save the copied chart to a dashboard. Copied widgets are always placed into a new region on the dashboard, which you can later modify.

Tip: If you want to copy a dashboard chart or text box without creating a new region, click the command menu i in the upper right corner of the dashboard page and click **Edit Layout**. Find the chart you want to copy and then click **Duplicate**.

- 1. Log in to the ExtraHop system through https://<extrahop-hostname-or-IP-address>.
- 2. At the top of the page, click **Dashboards**.
- 3. Select a dashboard that contains the chart or widget that you want to copy.
- 4. Click the title.

Note: You cannot click the title of a text box widget. To copy a text widget, you must first edit the dashboard layout . Click the command menu i in the upper right corner of the text box widget, and then complete step 4.

- 5. Hover over **Copy to...** to expand a drop-down list and then make one of the following selections:
 - Select the name of an existing dashboard from the list. The dashboard list is ordered from the most • recently created dashboards (at the bottom) to the oldest dashboards (at the top).
 - Select Create Dashboard. In the Dashboard Properties & window, type a name for the new • dashboard and then click Create.
