Device name precedence

Published: 2024-04-01

Discovered devices are automatically named based on multiple sources of network data. When multiple names are found for a device, a default order of precedence is applied. You can change the order of precedence.

1. Log in to the ExtraHop system through `https://<extrahop-hostname-or-IP-address>`.
2. Click the System Settings icon ⚙ and then click **All Administration**.
3. In the System Configuration section, click **Device Name Precedence**.
4. Click and drag device names to create a new order of precedence.
5. Click **Save**.

   Click **Revert to Default** to undo your changes.
