

Present a dashboard

Published: 2024-08-06

You can set your dashboard to display in fullscreen mode for presentations or for your network operation center screens.

The fullscreen mode provides the following viewing options:

- You can view and interact with the entire dashboard while in Presentation Mode.
- You can view a continuous cycle of each chart in the dashboard in a Widget Slideshow.
- You can view a [single region in fullscreen display](#).

To present an entire dashboard in fullscreen display, complete the following steps:

1. Log in to the ExtraHop system through `https://<extrahop-hostname-or-IP-address>`.
2. At the top of the page, click **Dashboards**.
3. From the dashboard dock, select the dashboard you want to present.
4. In the upper right corner of the page, click the command menu  and select one of the following options:

Presentation Mode

The dashboard dock and top navigation menus collapse. You can interact with the time interval and dashboard components while in presentation mode.

Widget Slideshow

A continuous cycle of charts and widgets in fullscreen display begins. Select how long you want each widget to display (for example, **20 seconds**, **15 seconds**, etc.). Click the **x** icon in the upper right corner of the screen to return to the dashboard.

Tip: To open a dashboard in Presentation Mode, add `/presentation` to the end of the URL and then bookmark it. For example:

```
https://<extrahop_ip>/extrahop/#/Dashboard/437/presentation
```
