

Create an activity map

Published: 2017-08-08Z

An activity map is a directed graph that shows interconnections between objects on a network.

1. Log into the Web UI on the Discover appliance.
2. Click **Metrics** and then select a device or device group.
3. In the upper right corner, click the command menu and select **Generate Activity Map**.
4. Configure settings activity map settings.
5. Click **OK**.
